

Cell Group

Week Five

Go to Martha's and get the tape from the April 83 Workers meeting on the Great Commission. This is a good time to bring in world vision and our responsibility to spread the word all over the world. Teach on the great commission and what the Fish House is doing about it through Frontier Fellowship. This teaching is a good one to assign to one of the girls in your cell group to give. Give her the tape and the information available in the office on Frontier Fellowship. Tell her she will be responsible to study the tape, then go over it with you and teach it to cell group. She will also be responsible to collect the money each month and send it in. Don't be afraid to give someone this responsibility. Many times, it's not until our girls take responsibility that they really grow and taste the fulfillment.

Next week a test over everything so far.
